Short Term Course in Office Automation

31st JULY, 2017 – 21st AUGUST, 2017

TIME : 2: 00 P.M. TO 5:00 P.M.

DURATION : 30 HRS

About the College

S.I.W.S. is a premier institution having a glorious history of 84 years. Over the years the institution has grown by leaps and bounds by expanding from K.G. to Ph.D. The college runs B.Com. & B.Sc. (Aided) along with self - financing courses - B.M.S., B.Com. (Accountancy & Finance) , B.Com. (Banking and Insurance), B.M.M., B.Sc.(I.T.), B.Sc.(C.S.), M.Com., M.Sc. & Ph.D. in Business Economics.

With the launch of self-financing courses, there has been a professional approach in imparting knowledge and information so as to bring out the fullest potential of the students.

Our motto, 'Vidya Dhanam Sarva Dhanath Pradhanam' is the driving force that motivates us in all our endeavours

Objective of the Course:

To provide an in-depth training in use of office automation, internet and internet tools. The course also helps the candidates to get acquainted with IT.

Learning Outcomes:

After completion of the course, students would be able to documents, spreadsheets, make small presentations and would be acquainted with internet.

**LINUX
ADMINISTRATION**

Course Overview :

In this course, Getting Started with Linux, you will learn the basics of installing and managing Linux systems. First, you will introduce yourself to finding and working with Linux distributions, desktops, and open source software. Next, you will learn to control and optimize the Linux runtime environment. Finally, you will use both physical and virtual Linux instances to install and manage server applications like the Apache HTTP web server and the Nextcloud file sharing suite.

When you've finished this course, you will have the skills and knowledge to plan, deploy, and administrate your own simple desktop and server Linux machines.

Short Term Course in Fundamentals of Robotics

NO REGISTRATION FEES

ELIGIBILITY: XIITH PASS

Why Robotics ?

The Introduction to Robotics Course introduces you to the concepts of robot flight and movement, how robots perceive their environment, and how they adjust their movements to avoid obstacles, navigate difficult terrains and accomplish complex tasks such as construction and disaster recovery. You will be exposed to real world examples of how robots have been applied in disaster situations, how they have made advances in human health care and what their future capabilities will be. The courses build towards a capstone in which you will learn how to program a robot to perform a variety of movements such as flying and grasping objects.

SKILLS YOU WILL GAIN

- Motion Planning
- Particle Filter
- Matlab
- Quadcopter
- Automated Planning And Scheduling
- Computer Vision
- Estimation
- Random Sample Consensus (Ransac)

About the Course:

PC Hardware is a study of the basic assembly, maintenance, and repair of microcomputer systems. Divided into eight (8) units, these hardware-oriented topics include subcomponents, such as system board, video, memory, storage, multimedia, networking, and printers.

Course Outcomes:

- Follow a step-by-step guide to all you need to know when assembling a PC and RAM, Windows 8 installation and BIOS and UEFI settings.
- Become familiar with many different device connections, how to connect them to your computer, and how to trouble the issues that may arise.
- Review troubleshooting some of the most common problems that may occur with the motherboard, CPU, and RAM.
- Learn how to troubleshoot HDD and RAID as well as become familiar with the troubleshooting tools at your disposal.
- Apply your knowledge throughout the course with quick quizzes.
- Participate in active discussions with other information technology students & participants becoming certified.
- Communicate with the instructor and openly ask questions that will be addressed!

Short Term Course on 'Oracle SQL & PL/SQL'

01st AUGUST, 2016 – 19th AUGUST, 2016

TIME : 2:00 P.M. TO 5:00 P.M.

DURATION : 30 HRS

About the College

S.I.W.S. is a premier institution having a glorious history of 84 years. Over the years the institution has grown by leaps and bounds by expanding from K.G. to Ph.D. The college runs B.Com. & B.Sc. (Aided) along with self-financing courses - B.M.S., B.Com. (Accountancy & Finance), B.Com. (Banking and Insurance), B.M.M., B.Sc.(I.T.), B.Sc.(C.S.), M.Com., M.Sc. & Ph.D. in Business Economics.

With the launch of self-financing courses, there has been a professional approach in imparting knowledge and information so as to bring out the fullest potential of the students.

Our motto, 'Vidya Dhanam Sarva Dhanath Pradhanam' is the driving force that motivates us in all our endeavours

About the Course:

In this Oracle 11g PL/SQL Bundle you will receive introduction training on PL/SQL database programming language covering syntax, structure and features of the language within the context of database applications and programming. In volume II students will dive into topics such as understanding the basic form and structure of program units stored within the database, building and maintaining stored procedures, functions, packaged programs, and database triggers. Additional topics include taking advantage of advanced programming techniques such as cursor variables and cursor expressions. This Oracle 11g course will prepare students for the Oracle certification exams (OCP).

Course Outcomes:

In introduction to Oracle 11g PL/SQL programming training, attendees write stored procedures, functions, packages, and triggers, and implement complex business rules with oracle 11g. They learn programming, management, and security issues of working with PL/SQL program units, Programming topics will include the built-in packages that come with Oracle, the creation of triggers, and stored procedure features.

Why Web Designing?

A strong internet presence has become essential for every new and growing business today.

The first and foremost way for a business to begin online is through designing a spectacular website that can represent its core ideas and the brand. With this need for crafting cool and amazing websites, various career prospects in web designing have rapidly emerged.

If you are someone with a knack for programming skills coupled with an eye for crafting stunning aesthetics, you can pursue a web designing course and gather the technical skills and knowledge required to be a web designer. you can pursue a web designing course and gather the technical skills and knowledge required to be a web designer.

Course Outcomes:

- How to design a website
- Creating different themes for different layouts
- How to design the look and feel of a website
- How to create and design banners,

SHORT TERM COURSE IN "SOFTWARE DEVELOPMENT LIFE CYCLE"

About the Course

This Short term course is designed for people who are new to software engineering. It's also for those who have already developed software, but wish to gain a deeper understanding of the underlying context and theory of software development practices.

At the end of this Course, we expect learners to be able to:

- 1.) Build high-quality and secure software using SDLC methodologies such as agile, lean, and traditional/waterfall.
- 2.) Analyze a software development team's SDLC methodology and make recommendations for improvements.
- 3.) Compare and contrast software development methodologies with respect to environmental, organizational, and product constraints.

Short Term Course in Fundamentals of Network Communication and TCP/IP

30th JANUARY, 2017 – 18th FEBRUARY, 2017

TIME : 2:00 P.M. TO 5:00 P.M.

DURATION : 34 HRS

About the Course

You use the Internet through your PC (Personal Computer), laptop, tablet, smartpad, and smartphone every day in everything you do.

Through your own PC/laptop, you can easily learn everything about the Internet, and that is what this course is focused on.

In this course 'Introduction to TCP/IP,' you will learn the operational functions of Internet technologies (which include IPv4, IPv6, TCP, UDP, addressing, routing, domain names, etc.) and your PC/laptop's security and gateway Internet setup and basic principles.

In addition, through a simple Wireshark experiment, you will see the TCP/IP packets and security systems in action that are serving your PC/laptop, that serves you.

SKILLS YOU WILL GAIN
