ONLINE CERTIFICATE COURSE ON INTRODUCTION TO DISASTER MANAGEMENT
BY DEPARTMENT OF ENVIRONMENTAL STUDIES

Introduction : Disasters, either natural or man-made, strike suddenly, with little or no warning and there by cause massive destruction of life, property and environment at large. India has a long history of being hit by disasters and are becoming more frequent in the current times. The severity of disasters like cyclones, earthquakes, landslides, disease outbreaks, etc. is now much aggravated by prevalent climatic changes. It is thus an urgent necessity to mitigate the effects of disasters through preparedness, technological interventions and systematically implementing post disaster response activities. Thus, disaster management as a comprehensive and continuous activity should be learnt by all the citizen to bravely face the circumstances and effects of disasters.

The Department of Environmental Studies of S.I.W.S. College offered an online professional introductory level course on Disaster Management followed by a training program by Aniruddh Academy of Disaster Management (AADM) from 25th August, 2021 to 3rd September, 2021. The course faculty comprised of academicians and leading experts with enormous experience in the field of disaster management. The course was conducted in online mode using Google Classroom – Google Meet Platform. The course provided students with real life case studies of disasters and their management at individual level.

Objectives :

On completion of the course, the students will be able to

Type of Activity : Online Certificate Course

Course Code : 20102

Theme : Data Science – Beginners Level 1

Duration : August 25, 2021 To September 16, 2021 (36 Hours)

Collaboration : -

Resource Person : Prof.Rohit Kumar Sahu,
Prof.Sabir Shaikh &
Dr Amiya Ranjan

Objective :
• Participants will be able to explore the overview of emerging technologies under Data Science and gained proficiency with statistical analysis and learnt to develop relevant programming abilities

Number of Participants (Enrolled) : 40

Number of Participants (Completed) : 26

Outcome :
• Participants explored the overview of emerging technologies under Data Science and gained proficiency with statistical analysis and learnt to develop relevant programming abilities

IQAC & THE DEPARTMENTS OF COMPUTER SCIENCE & INFORMATION TECHNOLOGY

“Online Certificate Course In Data Science - Beginners Level 1”

SUMMARY REPORT

IQAC & The Departments Of Computer Science & Information Technology organized an Online Certificate Course In Data Science from 25th August, 2021 to 16th September, 2021 which was a 3 weeks Program(36 Hours) conducted from 3 p.m. to 5 p.m. dissected into 3 modules. Data Science helps organizations to increase operational efficiency, identify new business opportunities and improve their marketing and sales.

This Certificate Course introduced the participants to the upcoming and rapidly growing field of data science and its numerous applications. The syllabus was meticulously designed to provide an understanding of data science techniques as well as their commercial applications. It incorporated an interdisciplinary blend of statistics, software programming as well as applied mathematics. This certification program encompassed theoretical aspects as well as hands-on training to familiarize participants with various techniques and analytical tools of data science that are applied today in various sectors.

The modules covered up the given below specifics by our esteemed speakers:

MODULE 1 : DATA SCIENCE

- Introduction to Data Science
- Data Science Life Cycle
- Overview of Database Management System
- Introduction to Concepts (Machine Learning, Big Data, Cloud computing)

Prof. Rohit Kumar Sahu

MODULE 2 : Basic Statistics

- Introduction to Statistics terminologies
- Frequency Measures
- Measures of Central Tendency
- Measures of Dispersion
- Moments and Skewness
- Introduction to Probability
- Probability Distribution

Prof. Sabir Shaikh

MODULE 3 : R Programming

- Introduction to R
- Basic Mathematical Operations
- Variables and Datatypes
- Control Structures
- Functions

Dr. Amiya Ranjan

The eminent speakers shared insights making participants familiar with the upcoming area of Data Science and its applications and helping them improvise their skills.

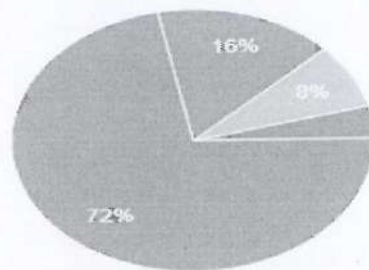

Evaluation Method

- Evaluation and Certification were based on the scores obtained by candidates during the test conducted
- Multiple Choice Questions (MCQ) Test was conducted at the end of each module

The Overall Impact for all the days as rated by majority of the participants for the sessions was **Excellent**. There were a total of 40 participants for the course. The sessions were rated as very informative.

VERY HELPFUL , INFORMATIVE AND KNOWLEDGABLE . LOOKING FORWARD FOR MORE SUCH EVENTS.

Nice lecture its really help me to know lots of think about data science

The session was great and full of knowledge

This session was very helpful for me and i have clear all my doubts and i have got the valuable information and i got understand what to do next in my career so thank you sir and teacher for organizing the valuable session.

This session is really Knowledgeable for me & i hope ki aage b College me aise session Honge

Teaching by the teacher was good

it was good

Overall feedback was great and it was very informative to the participants to add on their skills.

Outcome

- Participants explored the overview of emerging technologies under Data Science
- Participants gained proficiency with statistical analysis and learnt to develop relevant programming abilities
- Participants were able to conceptualize and apply Descriptive Statistics through R programming

ONLINE CERTIFICATE COURSE ON
'BASICS OF E-FILLING UNDER CORPORATE LAWS'

REPORT

I.Q.A.C., Department of Accountancy and B.Com (Accountancy & Finance) jointly organised an Online Certificate Course in 'BASICS OF E-FILLING UNDER CORPORATE LAWS' for the students of B.Com and B.com (Accountancy and Finance) between 8 – 27 September, 2021. Total of 63 students enrolled for the course.

INTRODUCTION:

The introduction of the Companies Act, 2013 brought in sweeping changes with respect to compliances for Companies. This has created a range of opportunities for accounting, secretarial and legal professionals. It is imperative that the theoretical knowledge of company law is complemented by the practical application of the law and the various procedures and compliances that need to be carried out by Companies. In this age of electronic filing and compliance, it is also imperative for students to understand the operations of government compliance portals. The course intends to provide theoretical and practical knowledge of Company Law and compliances to be made by Companies and Limited Liability Partnerships.

OBJECTIVES:

1. To understand the basic provisions of the Companies Act, 2013 & Limited Liability Partnership Act, 2008.
2. To learn the various provisions required to incorporate Companies and Limited Liability Partnerships.
3. To understand the major compliances required to be made by Companies and Limited Liability Partnerships.
4. Observe the various functionalities of the MCA portal

ENTREPRENEURIAL DEVELOPMENT

INTRODUCTION

'ENTREPRENEURIAL DEVELOPMENT PROGRAMME (EDP)' is a 15-days intensive workshop aimed at orienting and encouraging students to take up entrepreneurship as a career option. The workshop is specially designed for the students who do not have any or very little idea about innovation & entrepreneurship. The purpose of the EDP is to create awareness among students for emerging technology trends and opportunities and in setting up innovative projects and startups after completion of their studies instead of searching for jobs only. This program makes participants familiar about the role and importance of innovation, technology and entrepreneurship in the Indian economy, the process of setting up ventures, preparing innovative projects, identifying opportunities and possibilities of starting a new business.

OBJECTIVES

The objectives of the EDP program would be:

- To understand Next Generation Entrepreneurship and its journey.
- To evaluate Entrepreneurship as a career option.
- To get a glimpse of emerging Next Generation Technology trends and opportunities.
- To learn how to generate Entrepreneurial Idea(s).
- To know about Startup Stages and Funding Opportunities to start a venture.

“Opportunities After Graduation”

Objectives :

1. Develop job oriented soft skills.
2. Create awareness about higher studies options and opportunities
3. To orient them for attempting the entrance examinations for government sector jobs.

Core Science disciplines like Physics, Chemistry and Life sciences have always been very challenging subjects. Many Interdisciplinary programs and courses are emerging. Students need to upgrade their knowledge about these fields. In this period of Pandemic students are seriously affected both psychologically and financially. To help the students to regain their confidence, this cocktail program was designed to give overview of Conventional and Emerging opportunities in Higher Education as well as Private & Public sector jobs.

The Department of Physics, Microbiology and Chemistry along with Internal Quality Assurance Cell of S.I.W.S. college together had organised an online introductory level short term course on “Opportunities After Graduation”. Course Faculty were renowned faculty from various departments of University of Mumbai, Representatives from different esteemed higher education and research institutions and Representatives of different government bodies as well as stalwart freelancers in their own areas.

The course was conducted from 16th September 2021 to 30th September 2021. The course timing was 3.00 pm to 5.00 pm on most of the days (Monday to Saturday) and 10am to 12.00 noon on Sundays. This timing was most comfortable for students as they could attend their regular college lectures in mornings (8.00 am to 2.00pm) & also devote time to self-study in evenings after 6.00pm.

The curriculum for the course was as below.

Module	Topic	sessions

ONLINE CERTIFICATE COURSE ON
'BASICS OF E-FILING UNDER INCOME TAX LAW'

5th November 2021

SUMMARY REPORT

I.Q.A.C., Department of Accountancy and B.Com (Accountancy & Finance) jointly organised an Online Certificate Course in 'BASICS OF E-FILING UNDER INCOME TAX LAW' between 16th to 30th October, 2021. Total of 35 students enrolled for the course.

INTRODUCTION:

Every assessee having a taxable income is required to file an Income Tax Return. The Government of India introduced a new Income Tax E-filing portal this year. This portal has been designed to make income tax compliances less tedious and less complicated. The huge number of assessee coupled with use of technology to file income tax returns has created a range of opportunities for tax professionals. It is imperative that the theoretical knowledge of the Income Tax Act, 1961 is complemented by the knowledge of procedures and compliances that need to be carried out. In this age of electronic filing and compliance, it is also imperative for students to understand the operation of the new Income Tax E-filing portal.

The Income Tax law in India is widely perceived to be complicated and beyond the understanding of the ordinary citizen. To decode this law and make the understanding of the compliances simpler, the Department of Accountancy & Department of Bachelor of Commerce (Accounting & Finance) of S.I.W.S. College is offering an online certificate course on Basics of e-filing under Income Tax Act.

The course intends to provide theoretical and practical knowledge of the provisions of the Income Tax Act, 1961 and the filing of the income tax returns for different types of assessee. The course faculty comprises of academicians and professionals practicing in Income Tax.

OBJECTIVES:

1. To understand the basic provisions of the Income Tax Act, 1961.
2. To understand the requirements in filing the various Income Tax Return forms.
3. To understand the provisions related to payment of Income Tax & TDS.
4. Observe the various functionalities of the Income Tax portal
5. Get a first-hand knowledge of the e-filing of Income Tax returns.

The screenshot shows a Zoom meeting interface. The main content is a presentation slide titled "Computation of Capital Gains". The slide is divided into two columns: STCG (Short Term Capital Gains) and LTCG (Long Term Capital Gains). Each column has a table with rows for "Less Expenses", "Net consideration", "Less COA, COI", "STCG/LTCG", "Less Exemption U/s 54 E, D, G, GA", and "STCG/LTCG chargeable to tax". The tables use "XXX" as placeholders for numerical values. Below the tables, there is a small text box that says "For more details visit www.sircafe.co.in". To the right of the slide is a grid of participant avatars, including CA. Paresh Udeshi, Helen Selvaraj, Jayasrakash, Shubham Vahwani, Niyati Nagde, LAVANYA CHETTL, PRAGNESH PAWAR, VIVEK CHHEDA, TEJAS SANE, SURAJ WADEKAR, and 23 others.

Day 7 – 22.10.2021

The screenshot shows a Zoom meeting interface. The main content is a presentation slide titled "Income Tax Returns". The slide contains instructions for downloading and importing pre-filled data. It has three main sections: "Download Pre-filled Data", "Import Pre-filled Data", and "Import draft ITR filed in online mode". Each section includes a brief description of the process. Below the slide is a grid of participant avatars, including CA. Paresh Udeshi, Helen Selvaraj, GURUPRAKASH N., LAVANYA CHETTL, Ravindra Singh, SANKET KUMBHAR, ROSHANI YADAV, SURAJ WADEKAR, PRAGNESH PAWAR, KIRAN JAIN, and 23 others.

Subject: Request for collaboration with your institution to organize a certificate course on
'Computational Techniques in Vedic Mathematics' for your college students.

Dear Madam,

I, Shruti Vaidya, am a certified Vedic Maths teacher. I conduct Vedic Maths course which helps students in faster calculations and it also acts as an exercise for the brain. There are many other benefits attached to Vedic Maths like improving mental calculations, increasing concentration, judging the accuracy of a problem in seconds, boosting confidence and most importantly converting Maths into a playful and joyful activity.

To reach maximum students all over the world, I started my own Youtube channel and a Facebook page 'Unique Maths Techniques' wherein I keep on sharing various Maths techniques.

I believe, if these techniques are introduced to students then they will benefit a lot and will also remove the fear of Maths from them. As Vedic Maths techniques also acts as a brain exercise, children will also be able to tackle problems of day to day life.

As my aim is to reach more students, I request you to give me an opportunity to teach students of your esteemed college and create an environment of fun learning. Looking forward for a positive reply.

Yours truly,
Shruti Vaidya

REPORT

Online Certificate Course titled
"COMPUTATIONAL TECHNIQUES IN VEDIC MATHEMATICS"
By Department of Mathematics and IQAC in collaboration with
Unique Math's Techniques
16 - 30 October, 2021

Title: Online Certificate Course titled ' COMPUTATIONAL TECHNIQUES IN VEDIC MATHEMATICS '

DURATION: 16 - 30 October, 2021 (30 Hours)

RESOURCE PERSON: Ms. Shruti Vaidya

Preamble:

Vedic Mathematics is an ancient mathematical trick which was discovered by Indian mathematician Jagadguru Sri Bharathi Krishna Tirthaji in the period between A.D. 1911 and 1918. Vedic Mathematics has its origin in the Vedas. Veda in Sanskrit means Knowledge. Therefore, the Vedas contain all knowledge that is essential for mankind. Vedic mathematics is a collection of Techniques (Sutras) to solve mathematical arithmetic's in an easy and faster way. It consists of 16 Sutras (Formula's) and 13 sub-sutras (Sub Formula's) which can be used for solving Mathematical problems. These sixteen sutras with sub sutras can be used not only in Arithmetic but Algebra, Geometry, Trigonometry, Determinants, Matrices as well as Calculus. The advantage of these Sutras can be applicable to any complex Mathematical problem solving in simplified manner which otherwise must have needed cumbersome steps to solve.

In order to equip the students with the nuanced techniques of VEDIC MATH, a workshop was organized by the Department of Mathematics and Internal Quality Assurance Cell of the institution by Ms. Shruti Vaidya from Unique Math's Techniques.

ATTENDEES: A total of 59 college students and 3 Math teachers participated in the course. All were given certificates as per their interaction in the class, attendance and test score.

EVALUATION METHOD: Evaluation and Certification was based on the active participation in the classroom, attendance and the MCQ test score.

OBJECTIVES:

- To perform accelerated arithmetic calculations mentally at higher speed.
- To reduce the dependency on calculating devices.
- To increase the accuracy of computation.
- To enhance logical thinking for solving problems in competitive exams.

DESCRIPTION ABOUT THE PROGRAM:

Day 1- Introduction to Vedic Maths

Day 2- Addition techniques

- Complementary Method – This method is useful for large calculations. The Vedic Sutra (Puranapurabhyam) is based on completion and non-completion of a base number that is the multiple of 10. The calculation is made easier by pairing numbers which complete a base.
- Dot Method – This method is based on Ekadhikena Purvena which means one more than the previous one.

Day 3- Subtraction techniques

- All from nine and last from ten Method – The literal meaning of Vedic Maths Sutra Nikhilam Navatascaramam Dasatah is -All from nine and last from ten. This method works faster when subtraction is done from multiples of 10.

Day 4- Multiplication techniques

- Base Method – This method is based on Nikhilam Navatascaramam Dasatah sutra which works better when both the multiplicand and multiplier are very close to the base. The base should be in the form of 10^n , where n is a natural number.

Day 5- Multiplication techniques

- Vertically Crosswise Multiplication – This Vedic Maths Sutra Urdhava Tiryagbhyam is a general formula applicable to all cases of multiplication. It is a process of vertical and crosswise multiplication. With practice, you can multiply any digits of number and obtain the result in one line.

Day 6- Multiplication techniques

- Series of Nine's – The Vedic Sutra Ekanyuena Purvena is an one liner multiplication technique. It is applicable only in case where there is number of 9's in multiplier.

Day 7- Division techniques

- Base Method – This Vedic Sutra Nikhilam Navatascaramam Dasatah is being used in Subtraction, Multiplication and now in Division. This Sutra has limited application and is useful when every digit of the divisor is greater than 5.

Day 8- Division techniques

- Transpose and Apply Method – The Vedic Maths Sutra Paravartya Yojyet has an upper hand in comparison with the Nikhilam method. The well-known rule relating to transposition is to invariably change the sign with every change of side.

Day 9- Division techniques

- Crowning Gem/ Flag Method – Urdhava Tiryagbhyam Vedic Maths Sutra is used in this method which is applicable in all types of division. This method is also called the Dhvajank method of division. The word 'Dhwaj' means flag and 'anka' means digit.

Day 10- Squares techniques

- Number ending with 5 – Ekadhikena Purvena Vedic Sutra method of finding a square has limited application and is valid only when the unit digit of any number is 5.
- Base Method – The Vedic sub sutra Yavadunam Tavaduni Kritya vargena yojayet is used for squaring numbers which are closer to the base.

Day 11- Squares techniques

- Duplex Method – The Vedic sutra Dwanda Yoga – Duplex combination is applicable in all the cases. The term Dwanda yoga is used in two different senses – The first one is by squaring and the second one is by cross multiplication.

Day 12- Square roots technique

- By mere observation – Vedic Sutra Vilokanam help you to find the square root of 3-4 digit by mere observation.

Day 13- Cubes technique

- Anurupyen Vedic Sutra is based on the concept of Geometric Progression.

Day 14- Cube roots technique

- By mere observation method – The literal meaning of Vilokanam Sutra means by inspection or observation. It helps you to determine the unit digit and ten's digit of perfect cube root in a few seconds, if the number whose cube root is to be extracted is less than 7 digit. If the

digit. If the number whose cube root is to be extracted is more than 7 digits, this sutra will help you to find L (Left) and R (Right) digit of the cube root.

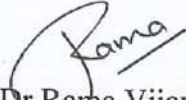

- Casting out nine method – While extracting the cube root of a number having more than 7 digits, you will have two options for M (Middle) digit, to find out the middle term Beejank method is used.

Day 15- Multiplication in Algebraic Polynomials

- Vertically cross wise method – Urdhava Tiryagbhyam Sutra is equally applicable to the polynomial involving different power of x.

OUTCOMES:

- The certificate course sought to apprise students of tricks that they could employ to make their calculations faster and accurate.
- The students could practice to grasp the tricks spontaneously.

Introduction

The Short Term Certificate Course on 'Gender Sensitisation & Social Justice' creates awareness to the participants about the inequalities existing in society towards gender.

The syllabus of the course on Gender is designed to inculcate values of equality, inclusivity and diversity, which are essential for building a healthy society among the adolescent boys and girls. By introducing 'Gender Sensitization & Social Justice' short term certificate course to the students, would impart knowledge of law relating to women and sensitize them. It is crucial for balanced development of young minds; it will also help students in building correct values, self-discipline and national spirit.

The topics selected for the Short Term Certificate Course were Gender Sensitization & Indian Law, Human Right & Gender, Response of Civil Society Organisations to Domestic Violence during Lockdown, Violence Against Women and Legislative Reforms, Women's Paid and Unpaid Care Work and many other relevant topics. The resource persons invited were experts in their respective fields and did justice to the topics selected.
