SUMMARY REPORT

Short Term Course in "Oracle SQL & PL/SQL"

NAME & BRIEF ABOUT COURSE

IQAC & The Department Of Computer Science organized a Short Term Course In "Oracle SQL & PL/SQL " from 5th August, 2016 to 14th August,2016 which was a 30 Hours course conducted from 2 p.m. to 5 p.m. A database is an organized collection of data, so that it can be easily accessed and managed. Participants will gain insights on Database Management Systems which are software systems used to store, retrieve, and run queries on data.

OBJECTIVE

The role of a data scientist is to turn raw data into actionable insights. Much of the world's raw data—from electronic medical records to customer transaction histories—lives in organized collections of tables called relational databases. To be an effective data scientist, you must know how to wrangle and extract data from these databases using a language called SQL . This course teaches syntax in SQL shared by many types of databases, such as SQL and Oracle. This Certificate course teaches you everything you need to know to begin working with databases today.

DURATION & DATE

5th August, 2016 to 14th August,2016(30 Hours) conducted from 2 p.m. to 5 p.m.

NO OF STUDENTS ENROLLED : 26

NO OF STUDENTS QUALIFIED : 26

MODULES

The modules were conducted by Prof. Suchita Revankar and Prof. Muskaan Kursija:

Module 1: **Introduction To SQL**

Module 2: **Integrity Constraints, Data Aggregation**

Module 3: **PL/SQL**

EVALUATION METHOD
Students were evaluated on a Practical test based on solving queries of SQL and PL/SQL

RESOURCE PERSON

Prof. Suchita Revankar and Prof. Muskaan Kursija

OUTCOME
- Develop efficient PL/SQL programs to access Oracle databases
- Create stored procedures and functions for reuse and maintenance
- Design modular applications using packages
- Manage data retrieval for front-end applications

Date : 16/8/2016

Organize

Short Term Course on 'Oracle SQL & PL/SQL'

01st AUGUST, 2016 – 19th AUGUST, 2016

TIME : 2: 00 P.M. TO 5:00 P.M.

DURATION : 30 HRS

About the College

S.I.W.S. is a premier institution having a glorious history of 84 years. Over the years the institution has grown by leaps and bounds by expanding from K.G. to Ph.D. The college runs B.Com. & B.Sc. (Aided) along with self - financing courses - B.M.S., B.Com. (Accountancy & Finance) , B.Com. (Banking and Insurance), B.M.M., B.Sc.(I.T.), B.Sc.(C.S.), M.Com., M.Sc. & Ph.D. in Business Economics.

With the launch of self-financing courses, there has been a professional approach in imparting knowledge and information so as to bring out the fullest potential of the students.

Our motto, 'Vidya Dhanam Sarva Dhanath Pradhanam' is the driving force that motivates us in all our endeavours

About the Course:

In this Oracle 11g PL/SQL Bundle you will receive introduction training on PL/SQL database programming language covering syntax, structure and features of the language within the context of database applications and programming. In volume II students will dive into topics such as understanding the basic form and structure of program units stored within the database, building and maintaining stored procedures, functions, packaged programs, and database triggers. Additional topics include taking advantage of advanced programming techniques such as cursor variables and cursor expressions. This Oracle 11g course will prepare students for the Oracle certification exams (OCP).

Course Outcomes:

In introduction to Oracle 11g PL/SQL programming training, attendees write stored procedures, functions, packages, and triggers, and implement complex business rules with oracle 11g. They learn programming, management, and security issues of working with PL/SQL program units. Programming topics will include the built-in packages that come with Oracle, the creation of triggers, and stored procedure features.

Eligibility:

- XII th Pass

SUMMARY REPORT

Short Term Course in - Web Designing

NAME & BRIEF ABOUT COURSE

IQAC & The Department Of Computer Science organized a Short Term Course In "Web Designing" from 31st August, 2016 to 14th September,2016 which was a 2 weeks Program(32 Hours) conducted from 2 p.m. to 5 p.m. dissected into 3 modules. Web Designing enables students to learn various techniques, tools and programming languages in order to create and maintain web pages.

OBJECTIVE

This Certificate Course introduced the participants to become familiar with graphic design principles that relate to web design and learn how to implement theories into practice. Develop skills in analyzing the usability of a web site. Understand how to plan and conduct user research related to web usability. Learn the language of the web upcoming and rapidly growing field. The syllabus was diligently designed to build the student's knowledge of web design and development to an intermediate level. Students learnt the fundamental languages and markups for front-end web programming and were introduced conceptually to some of the more complex web topics.By the end of this course, students should be able to design, program and publish a working and atheistic website.

DURATION & DATE

31st August, 2016 to 14th September, 2016 (32 Hours) conducted from 2 p.m. to 5 p.m.

NO OF STUDENTS ENROLLED : 23

NO OF STUDENTS QUALIFIED : 23

MODULES

The modules covered up the given below specifics by Prof. Virgin Fernando:

Module 1: **HTML 5 and CSS**

Module 2: **JavaScript**

Module 3: **PHP**

EVALUATION METHOD

Students were evaluated on a practical test based on developing an interactive website containing 4 to 7 web pages.

Overall feedback was great and it was very informative to the participants to add on their skills.

RESOURCE PERSON

Prof. Virgin Fernando

Outcome
- How to design a website
- Creating different themes for different layouts
- How to design the look and feel of a website
- How to create and design banners

Short Term Course in "Web Designing"

29th AUGUST, 2016 – 14th SEPTEMBER, 2016

TIME : 2: 00 P.M. TO 5:00 P.M.

DURATION : 32 HRS

About the College

S.I.W.S. is a premier institution having a glorious history of 84 years. Over the years the institution has grown by leaps and bounds by expanding from K.G. to Ph.D. The college runs B.Com. & B.Sc. (Aided) along with self - financing courses - B.M.S., B.Com. (Accountancy & Finance) , B.Com. (Banking and Insurance), B.M.M., B.Sc.(I.T.), B.Sc.(C.S.), M.Com., M.Sc. & Ph.D. in Business Economics.

With the launch of self-financing courses, there has been a professional approach in imparting knowledge and information so as to bring out the fullest potential of the students.

Our motto, 'Vidya Dhanam Sarva Dhanath Pradhanam' is the driving force that motivates us in all our endeavours

Why Web Designing?

A strong internet presence has become essential for every new and growing business today.

The first and foremost way for a business to begin online is through designing a spectacular website that can represent its core ideas and the brand. With this need for crafting cool and amazing websites, various career prospects in web designing have rapidly emerged.

If you are someone with a knack for programming skills coupled with an eye for crafting stunning aesthetics, you can pursue a web designing course and gather the technical skills and knowledge required to be a web designer. you can pursue a web designing course and gather the technical skills and knowledge required to be a web designer.

Course Outcomes:

- How to design a website
- Creating different themes for different layouts
- How to design the look and feel of a website
- How to create and design banners,

Eligibility:

- XII th Pass

SUMMARY REPORT

Short Term Course in "Software Development Life Cycle"

NAME & BRIEF ABOUT COURSE

IQAC & The Department Of Computer Science organized a Short Term Course In "Software Development Life Cycle" from 6th December, 2016 to 17th December,2016 which was a 30 Hours Program conducted from 2 p.m. to 5 p.m. Software Development Life Cycle is a process used by the software industry to design, develop and test high quality softwares.

OBJECTIVE

The SDLC course aims to help students understand how to produce a high-quality software that meets or exceeds customer expectations, reaches completion within times and cost estimates.

This Short term course was designed for people who are new to software engineering. It's also for those who have already developed software, but wish to gain a deeper understanding of the underlying context and theory of software development practices.

DURATION & DATE

6th December, 2016 to 17th December,2016(30 Hours Program)conducted from 2 p.m. to 5 p.m

NO OF STUDENTS ENROLLED : 25

NO OF STUDENTS QUALIFIED : 25

MODULES

The modules were held by Prof. Mona Marwaha which were as follows:

Module 1: **Introduction and Requirement Analysis and System Modelling**

Module 2: **System Design, Software Project Management**

Module 3: **Software Quality Assurance and Software Testing**

EVALUATION METHOD

There were a total of 23 participants. Students were evaluated on a practical test based on developing a Sample project SDLC documentation.

RESOURCE PERSON

Prof. Mona Marwaha

OUTCOME

- Build high-quality and secure software using SDLC methodologies such as agile, lean, and traditional/waterfall.
- Analyze a software development team's SDLC methodology and make recommendations for improvements.
- Compare and contrast software development methodologies with respect to environmental, organizational, and product constraints.

Wadala,

Mumbai.

Respected Mam,

On behalf of S.I.W.S. College, We would like to thank you for conducting lectures for our short term course "SOFTWARE DEVELOPMENT LIFE CYCLE "

on 5th December 2016 to 17th December 2016.

We believe that the knowledge you have shared will help all our participants immensely to decide on their careers and search for jobs effectively.

This course was very much useful to them. It helped them for project development of sem 6. We are grateful to you for sharing your precious time with us. We look forward to your participation in future events.

Thanking you.

Software Development LifeCycle

Eligibility:

* XII th Pass

About the Course

This Short term course is designed for people who are new to software engineering. It's also for those who have already developed software, but wish to gain a deeper understanding of the underlying context and theory of software development practices.

At the end of this Course, we expect learners to be able to:

1.) Build high-quality and secure software using SDLC methodologies such as agile, lean, and traditional/waterfall.

2.) Analyze a software development team's SDLC methodology and make recommendations for improvements.

3.) Compare and contrast software development methodologies with respect to environmental, organizational, and product constraints.

SUMMARY REPORT

Short Term Course in "Fundamentals of Network Communication and TCP/IP"

NAME & BRIEF ABOUT COURSE

IQAC & The Department Of Computer Science organized a Short Term Course in "Fundamentals of Network Communication and TCP/IP" from 30th January, 2017 to 14th February, 2017 which was a 30 Hours Program conducted from 2 p.m. to 5 p.m. Network communication defines a set of protocols that allow application programs to talk with each other without regard to the hardware and operating systems where they are run.

In this course, students learnt the operational functions of Internet technologies and their PC/laptop's security and gateway Internet setup and basic principles. In addition, through a simple Wireshark experiment, they saw the TCP/IP packets and security systems in action that were serving PC/laptop.

OBJECTIVE

1. To develop an understanding of computer networking basics.

2. To develop an understanding of different components of computer networks, various protocols,modern technologies and their applications.

3. Evaluate the challenges in building networks and solutions to those

DURATION & DATE

30th January, 2017 to 14th February, 2017 (30 Hours Program)conducted from 2 p.m. to 5 p.m.

Mumbai.

Respected Mam,

On behalf of S.I.W.S. College, We would like to thank you for your support, guidance & co-operation in accepting and delivering a Productive Session for our students in "Fundamentals of Network Communication and TCP/IP", from 30th JAN UARY 2017 to 18th February 2017

Students enjoyed Cisco packet tracer. The simulation of network communication was very much enjoyed by our students.

We are grateful to you for sharing your precious time with us. We look forward to your participation in future events.

Thanking you.

Organize

Short Term Course in Fundamentals of Network Communication and TCP/IP

TCP/IP

30th JANUARY, 2016 – 18th FEBRUARY, 2016

TIME : 2: 00 P.M. TO 5:00 P.M.

DURATION : 34 HRS

About the Course

'ou use the Internet through your PC (Personal Computer), laptop, tablet, martpad, and smartphone every day in everything you do.

hrough your own PC/laptop, you can easily learn everything about the Internet, nd that is what this course is focused on.

1 this course 'Introduction to TCP/IP,' you will learn the operational functions of nternet technologies (which include IPv4, IPv6, TCP, UDP, addressing, routing, omain names, etc.) and your PC/laptop's security and gateway Internet setup nd basic principles.

1 addition, through a simple Wireshark experiment, you will see the TCP/IP ackets and security systems in action that are serving your PC/laptop, that rves you.

SKILLS YOU WILL GAIN

Network Protocols

IP Address

Wireshark

Communication Protocols

Name of the Certificate Course:

Certificate Course on **Introduction to Python**

Course Duration:

6 Lectures - Monday to Friday- 1 weeks Program - 30 Hours- 10a.m. to 5 p.m.

Introduction

The Certificate Course on Introduction to Python introduces the participants to field of object-oriented programming and its Technologies.

The syllabus of the course on Python is designed to provide an understanding of programming.

Participants will be trained from basics to advance programming using the concept of python.

This certification program encompasses theoretical aspects as well as hands-on training to familiarize participants with various techniques and tools of python programming that are applied today in various sectors.

Objectives:

• Provide knowledge on emerging field of Programming.

• Enhancing logical thinking by developing programming skills

Curriculum:

Sr. No.	Topic	Details	Duration
1	Python Introduction	Introduction to Python Installing Anaconda Setting up Anaconda Environment Understanding Jupyter Notebook Variable Creation Understanding the type of variable Accepting value from user Writing simple programs using variables and its types	6 hours
2.	Python - Control Structure	Control Structures – if, if…elif Loops – while, for Understanding String - Concatenation, Repeatation, Membership and other methods Creating and Accessing List Creating and Accessing Tuples	6 hours
3.	Python - Data Structure	Creating and Accessing Dictionary Demonstrating List with branching statements and loops Demonstrating Tuple with branching statements and loops Demonstrating String with branching statements and loops	6 hours
4.	Python - Exception Handling	What is Error? What is an Exception? Difference between Error and Exception Understanding the built-in exceptions try…except… else clauses raise statement creating user defined exceptions Understanding Logging creating Logging	6 hours
5.	Python - GUI	Understanding Tkinter, Themed Tkinter and its widgets Label, Button, Entry, Combobox, Checkbox, Radiobutton, Spinboxr, ScrolledText, Frames, Menu, Tab Understanding the layout: gridlayout Creating Message boxes : Warning, information, error and yesno dialog Creating Simple GUI based application	6 hours

SMT.THIRUMALAI COLLEGE OF SCIENCE

MAJOR R. PARAMESHWARAN MARG, SEWREE – WADALA ESTATE,
PLOT NO. 337, WADALA, MUMBAI – 400 031.

Eligibility Criteria

- Students from all streams can apply.

- Attendance in all the Sessions is compulsory to get the final certificate

Evaluation Method

Evaluation and Certification would be based on the scores obtained by candidates during the test conducted in session and on the submission of final project.

Multiple Choice Questions (MCQ) Test would be conducted at the end of each module.

Candidates who fail to attend the sessions or not submitted the projects will not be awarded with the Certificate.

Outcome

- Participants will be able to build simple to advance applications.
- Participants will understand the challenges associated with developing for the object-oriented environment and how to overcome them.

Prospects

Python is a general-purpose, versatile, and powerful programming language. It's a great first language because it's concise and easy to read. From web development to machine learning to data science, Python is the language.

Python is:

Great first language

Large programming community

Excellent online documentation

Endless libraries and packages

World-wide popularity

Powerful and flexible

SMT.THIRUMALAI COLLEGE OF SCIENCE

MAJOR R. PARAMESHWARAN MARG, SEWREE – WADALA ESTATE,
PLOT NO. 337, WADALA, MUMBAI – 400 031.

Eligibility Criteria

- Students from all streams can apply.

- Attendance in all the Sessions is compulsory to get the final certificate

Evaluation Method

Evaluation and Certification would be based on the scores obtained by candidates during the test conducted in session and on the submission of final project.

Multiple Choice Questions (MCQ) Test would be conducted at the end of each module.

Candidates who fail to attend the sessions or not submitted the projects will not be awarded with the Certificate.

Outcome

- Participants will be able to build a cloud-connected Android app, and understand the tools, principles, and patterns that underlie all Android development.
- Participants will understand the challenges associated with developing for the mobile environment and how to overcome them.
- Participants will learn how to build a great user experience for Android devices, and apply this knowledge to their own projects.

Prospects

Android development is a software creation process that focuses on applications, better known as apps, that are compatible with devices running the Android operating system (OS). Because Android is an open-source project, developers have easy access to the Android software development kit (SDK). Many use this kit in conjunction with Kotlin, Java, and C++ programming languages to make their apps.

The Android SDK tools compile your code along with any data and resource files into an APK, or Android package, which is an archive file that uses an .apk suffix. One APK file contains all Android app contents used by devices to install your app. When the app is complete and ready for release, Android developers can upload their apps to the Google Play Store for users to download.

Name of the Certificate Course:

Certificate Course on Cross Platform Application

Course Duration:

6 Lectures - Monday to Friday- 1 weeks Program - 30 Hours- 10a.m. to 5 p.m.

Introduction

The Certificate Course on Cross Platform Application introduces the participants to field of Web Development and Web Technologies.

The syllabus of the course on Cross Platform Application is designed to provide an understanding of Web Designing techniques as well as their commercial applications.

Participants will be trained from basics of web designing,JavaScriptprogramming to advance web development models.

This certification program encompasses theoretical aspects as well as hands-on training to familiarize participants with various techniques and development tools of Web Development that are applied today in various sectors.

Objectives:

• Provide knowledge on Web Technologies techniques used in Cross Platform Applications

• Enhancing creativity by developing designing skills

**N.R. SWAMY COLLEGE OF COMMERCE & ECONOMICS &
SMT.THIRUMALAI COLLEGE OF SCIENCE**

MAJOR R. PARAMESHWARAN MARG, SEWREE – WADALA ESTATE,
PLOT NO. 337, WADALA, MUMBAI – 400 031.

Eligibility Criteria

- Students from all streams can apply.

- Attendance in all the Sessions is compulsory to get the final certificate

Evaluation Method

Evaluation and Certification would be based on the scores obtained by candidates during the test conducted in session and on the submission of final project.

Multiple Choice Questions (MCQ) Test would be conducted at the end of each module.

Candidates who fail to attend the sessions or not submitted the projects will not be awarded with the Certificate.

Outcome

- Participants will be able to design from simple static webpages to advance dynamic websites.

- Participants will be able to conceptualize and apply programming logics using JavaScript.

- Participants will gain the overview of emerging technologies under Cross Platform Application

Prospects

A cross-platform application is a mobile app that is compatible with multiple operating systems and can, therefore, run on any smartphone, tablet, PC, smartwatch, and connected TV.

Platform-independent applications have multiple advantages:

- 70–90% reusable code
- Easy maintenance and updates
- Broader reach
- Shorter time to market

Evaluation and Certification would be based on the scores obtained by candidates during the test conducted in session and on the submission of final project.

Multiple Choice Questions (MCQ) Test would be conducted at the end of each module.

Candidates who fail to attend the sessions or not submitted the projects will not be awarded with the Certificate.

Outcome

- Participants will be able to test their code/app–from individual freelance developers running a quick series of tests for debugging to UI engineers doing visual regression tests after a new integration.

- Participants will be able to writing focused, deterministic scripts to maximize test coverage and accuracy, refactoring old test suites for newer versions of the project, and maintaining test infrastructure.

- Participants will be able to creating comprehensive test suites to pinpoint 'show-stopper' bugs and advising stakeholders about updating performance benchmarks for the project

Prospects

Selenium is an open-source automated testing framework for web applications. Selenium provides a playback tool for authoring functional tests without the need to learn a test scripting language.

Countless hours are spent testing a web app to make sure it's functional in and outside the local development environment. Before Selenium, this testing fell to a host of manual testers, enacting and re-enacting hundreds of test case scenarios on all benchmarked browsers, flagging what broke and trying to pinpoint the source of that breakage.

Depending on the size of the manual testing team, an end-to-end system test could take anywhere between days to weeks to run its course.

Today's development methodologies work in significantly shorter time frames of two to four weeks. Shipping new, bug-free releases in that time requires deterministic, repeatable testing that provides near-instant feedback. That's why Selenium testing is integral to development today.

Department of Commerce

Name of the Certificate Course:

"Soft Skill Development Program"

Course Duration: Two batches were conducted during the year. The first batch was for BCom, BBI & BMS and had a batch size of 22 students that began on 2nd May 2017 and got over on 15th June 2017.The second batch was conducted for BCom, BBI and BMS students and had 19 students that began on 13th July 2017 and got over on 14th September 2017.

Introduction

Department of Commerce in association with an American NGO- Techno Serve conducted a "Soft Skill development program" Techno Serve,through the Campus to Corporate Careers (C2C) Program, provides a transformative workforce readiness skills training for youth to make better career choices andbuild a strong career path. The program also provides placement support through corporate linkages with large and small firms. The basic idea of holding this course is to tackle the increasing need felt by fresh graduates - to sharpen and improve interview preparedness and make informed career choices after their graduation

Objectives:

➢ To empower the final year students with the skills and attitude to enter competitive workforce.
➢ To provide a platform to the students to develop their overall personality.

Curriculum:

Youth Employability - Life Skills Curriculum and Timetable

TechnoServe, through the Youth Employability Program provides a transformative workforce readiness skills training for youth to make better career choices and build a strong career path. The program also provides placement support through corporate linkages with large and small firms. Our goal is to tackle the increasing need felt by fresh graduates - to sharpen and improve interview preparedness and make informed career choices after their graduation. Below is the outline of topics that would be covered across 45 sessions of the training. Each session would be at least 2hours.

1. **Personal and Professional Effectiveness** (16sessions)

This module is focussed on bringing out the inner confidence, goals and passions of student participants, while introducing them to key concepts in goal setting, financial planning and interpersonal skill development. All parts of this module are activity based and case study driven.

SMT.THIRUMALAI COLLEGE OF SCIENCE**

MAJOR R. PARAMESHWARAN MARG, SEWREE – WADALA ESTATE,
PLOT NO. 337, WADALA, MUMBAI – 400 031.

- How can we achieve our savingsgoal?
- Different types of financialorganizations
- How to open a bankaccount

1.8.   Employment andEmployability
- Ability to define formal and informalemployment.
- Ability to define employability and key employabilityskills.
- Ability to write a CV and coverletter

2. **Communicative English and Interview Preparation** (7sessions)

This module is focussed on introducing students to the basics in professional communication, communication dos' and donts' as well as a conclusive guide to giving interviews and group discussion.

2.1.   CommunicativeEnglish-basicsandnecess-0arytipstocommunicateforinterviews and thejob
2.2.   Complete Guide to GroupDiscussions
2.3.   Complete Guide to PersonalInterviews
2.4.   What are Aptitude Tests? & Professional Networking - a guide forbeginners
2.5.   Vocabulary List for Entry LevelEmployees

3. **Introduction to Industry and Career Orientation** (8sessions)

This module is focussed on setting job expectation with the students. The module explores career opportunities relevant to students from commerce background and gives them the reality v/s idealistic check on job markets. It will provide students with an in depth knowledge about different job domains as well as skill sets required to get the job and showcasing the career growth path for each role anddomain.

3.1.   CareerOrientation
3.2.   Introduction to Industry and CustomerSupport
3.3.   Orientation toSales
3.4.   Orientation to Back-Office roles (HR, Admin and Finance &Accounting)
3.5.   Computer Literacy - Primer to typing and MicrosoftExcel
3.6.   Mock PersonalInterviews
3.7.   Mock GroupDiscussion

4.   **Work Readiness (9 sessions)**

This module is focussed on addressing the gap the students face while transitioning from campus

to corporate as well as inculcating a sense of professionalism in them.

Unit 1 Professionalism

1. Best Practices of Offer Letter Acceptance

2. Joining the Workplace

3. How important is Professionalism

4. Demeanor

Unit 2 Understanding Career Paths

1. Need to plan our career paths

2. Employee Pyramid in corporate sector

Unit 3 Surviving Year 1

1. Maintaining a positive attitude before joining the workplace

2. Preventing a gap year

Unit 4 Work Ethics, Feedback and Performance Appraisal

1. Meaning of Work Ethics

2. Criteria for performance appraisal

3. Giving and Receiving feedback

Unit 5 Email Etiquettes

1. Basics to email Writing

2. Common abbreviations & common mistakes while writing emails

Unit 6 Working in a Group

1. Assertive style of Communication

2. Team Meetings

Unit 7 Presentations

5.   **Career Counselling**   **2 session**

This module is focused on guiding students both individually and in group and giving them thereal picture of job market as well as making sure that the skills that our students possess match with their interest areas for jobs and try to bridge the gap as much as possible.

5.1   In-training Counselling (2 sessions per student) with Group and Individual Counselling approaches. Here a career counselling survey will be administered at the start of the training

5.2   Post-training Counselling

5.3   Pre- and Post- Placement Counselling

5.4   Helpline Service

6 Lectures - 1 week program -

Monday, August 8, 2016 – Saturday, August 13, 2016.

(30 Hours)

Introduction:

The certificate course conducted by the Dept. of English is designed keeping in mind the demands of the world of work. Although the thrust of the course is communication, it aims at contributing toward the overall development of students.

The course comprises elements like-Sounds of the English Language, Use of Social Media Platforms, Presentation Skills, Business Etiquette and Grooming and Group Communication. The add-on course is open to students of all streams and experts from academia and the corporate world engage sessions at the course.

Objectives:

- To familiarise students with the complexity of the communication process

- Enable students to organise their thoughts in a meaningful and logical manner

- To lay the foundation for creating socially sensitive and employable graduates
