Fine Arts Circle

A report on 'Best out of Waste' Competition

The Fine Arts Circle had organized 'Best out of Waste Competition' on 30.11.19 in the library.

Objectives

- To develop the ability to think and organize thinking [thoughts, ideas] and to create something useful from waste material.
- To explore environmental concepts and actions beyond class room learning by following the principle of 3 R's. Reduce, Reuse, Recycle
- To nurture the values of environmental protection and conservation among students through creative craft activities.

Outcome

- Students learn how scrap material can be transformed into useful and aesthetic looking articles using ideas and imagination
- This activity enhances presentation skill.
- Help them realize the importance of 3 R's in preserving our environment.

There were twenty five participants from various streams. Students had brought many waste material viz. old news-papers, lids of toothpaste, egg shells, used hangers, old plastic bottles, used jeans, bottles' lids, etc.

What looked ragged, and filthy, was transformed into beautiful products. Some became attractive decorative pieces like flower pots, a very cute deer made from wood pieces while others became day to day utility articles like holder etc.

Dr. Sunita Shirvalkar and Prof. Deepali Nijapkar selected the winners.

First Prize was shared by Shweta Mungekar of T.Y.B.BSc. (Microbiology) and Thanusha V. of S.Y.BBI.
