About the College

S.I.W.S. is a premier institution having a glorious history of 84 years. Over the years the institution has grown by leaps and bounds by expanding from K.G. to Ph.D. The college runs B.Com. & B.Sc. (Aided) along with self-financing courses - B.M.S., B.Com. (Accountancy & Finance), B.Com. (Banking and Insurance), B.M.M., B.Sc.(I.T.), B.Sc.(C.S.), M.Com., M.Sc. & Ph.D. in Business Economics.

With the launch of self-financing courses, there has been a professional approach in imparting knowledge and information so as to bring out the fullest potential of the students.

Our motto, 'Vidya Dhanam Sarva Dhanath Pradhanam' is the driving force that motivates us in all our endeavours.

Acanthus

Acanthus aims at imparting professional wisdom orienting the students towards research, knowledge and information in an ever changing globe. It is the brain child of the faculty and students of self-financing courses who wholeheartedly follow the philosophy, 'The only thing constant in life is change'. Over the past several years, the students have conducted inter-collegiate seminars namely 'BIZWIZ and PRISM' which have been successful in fulfilling their objectives and helped them to expand their vision. The merger of both these seminars resulted in 'ACANTHUS' a further leap towards research orientation, professionalism & academic excellence.

About the Conference

Climate change is a global challenge today. All over the world, people are experiencing significant impact of climate change, which include changing weather patterns, rising sea level, and more extreme weather events. The ecological consequences become visible in global warming, loss of biodiversity, deforestation, desertification and decreasing natural resources.

Sustainable development should therefore be a serious issue in all kinds of policy fields affecting development. Implementation of the Paris Agreement is essential for the achievement of the sustainable development goals as it provides a roadmap for climate actions that will reduce emissions and build climate resilience.

There is an urgent need to address climate change implications by promoting climate-friendly trade and production strategies. The conference will focus on the impact of climate change and how environmental policies have to change to meet the goals of the Paris Agreement.

Objectives

- To create awareness about global climatic changes and its impact on environment
- To analyze measures for sustainable development

Call for Papers

Topic - Climate change, Environment and Sustainable Development in a Global Economy

Style Sheet for Authors

- All papers should be submitted in Times New Roman 12 - point type, 1.5 lines spacing in A4 size page setup, with margins of one inch from all sides. The article should be of maximum 2500 words.
- Manuscript should be accompanied with a declaration by the author that the paper is the author's own work and has neither been published nor submitted for publication elsewhere.
- The desired order of contents as follows:
 - * Title (Times New Roman 16-point type, in bold)
 - * Name of Author(s) (14-point type)
 - * Professional Affiliation(s): Current University, College and/or Department
 - * Email
 - * Abstract (250 words) in Times New Roman
 - * Font size 12
 - * Keywords
 - * Main Text in Times New Roman Font size 12
 - * Acknowledgements
 - * References and
 - * Appendices
- Full length research papers along with abstract should be mailed to acanthus.sivs@gmail.com on or before April 7, 2018.
- Selected papers will be published in the seminar proceedings with ISBN/ISSN.

Abstract Submission

Important Dates

- Notification of accepted abstracts Mar 30, 2018
- Full length paper submission Apr 5, 2018
- Intimation of acceptance of paper Apr 7, 2018
- Apr 10, 2018

Discussion Themes

Technical Session I : Climate Change and Environment

- * Climate change and its impact in a global economy
- * Food waste, forest and biodiversity conservation
- * Water resources management
- * Pollution and protection of air, soil and water environment
- * Municipal solid waste, commercial and industrial waste management
- * Green city, green energy and renewable energy, green transportation
- * Ecology and ecosystem management
- * Environment planning, management and policies

Technical Session II : Sustainable Development

- * Global, national and local sustainable development
- * Innovative techniques for sustainable development
- * Implementing sustainable development goals
- * Smart cities for sustainable development
- * Smart cities and green ICT systems
- * Sustainable development and education
- * Sustainable landscape management
- * Industrial ecology reaching the sustainable development goals
- * Effects of development on smart cities' cultural and ecological environment
- * Smart cities and ecosystem management
- * Natural capital and sustainable development
