Conclusion of the SWS Survey

Conclusion

[of SWS Survey by Pranesh Patil]

First of all, we all have to develop that thinking, that attitude & that understanding mind which will help us to respect the presence of woman with heart & with positive way.

We all should not be neglect power of women. We have to accept their presence, respect their nature of loving like a mother.

Mens & Womens belongs to only one category - i.e. Human beings. So we both are actually equal. Even we also accept that Both are incomplete without each other. For the growth of society & Human beings, we both should grow together. We all have to encourage their potential to grow further.

In this survey I found, nowadays there is positive impact has reflects on Womens growth. Nowadays most of womens became educated & aware. This awareness leads to destruction of any other misbehavior

or negative attitude or thinking of society. Nowadays womens started living like a lion girl, just only because of self evaluation .. because of they knows that they have potential. due to education & awareness.

To creat this type of confidence in girls - womens. we need to make them aware of all things, what they actually need to know.

It will happen only when we support & be with them to provide better educational opportunity.

जेरी पडाओ .. देश वाढाओ ?
