### Report of a staff program to Uran

In recognition of the services to the institution, the Degree College teaching staff were taken on a trip to Uran on **8 February 2017**, to unwind and be rejuvenated. The teachers assembled at Cheetah gate. A boat was arranged from there to Uran, the location of the nature trail. The boat ride was very enjoyable; the breeze was cool and scenic beauty gave right ambience to take snapshots for our memoirs. The mild ocean waves, sights of several boats and ships off the coast was mesmerizing. Sea gulls diving onto the waters to catch their prey was a treat to the eyes.

After the enjoyable half-hour ride we got off at Karanja and looked forward to spend a few hours away from city rush and pollution. We were transported by bus and cars over a 40 minutes' drive and reached Tunir which is the Naval base in Uran. We headed to Prof Asha Mathew's house where a sumptuous breakfast was arranged and kept ready. After exploring the Naval Commanding officer's house we went to see the butterfly park, which had some tiger butterflies. Then on to the deer park where we saw hundreds of deer, including their young ones. The Naval officer in-charge of the deer park gave us a briefing on their numbers and how they are also being transported to other National parks to avoid inbreeding.

The next attraction of our visit was the Naval museum. Lt. Commander Saurabh Yadav gave us details about the various missile models stored in the museum. We got to see several P series missiles which included a surface to surface missile P-15, which he said was used in the 1971 war against Pakistan. Monoblock club missile, Missile 3M 543 called the sustainer club missile. Sea Eagle which is a medium weight sea skimming anti-ship missile. The Magic Mantra is an air to air interception and closed combat anti-aircraft missile. RZ -61 is a surface to air missile fired from the Rajput class of ships. The Kashmir missile is a fire and forget system which is pre-programmed and cannot be controlled once fired. The modified P-21 is a supersonic in-house innovation made in India with men from INS Tunir taking it up as a challenge. We also saw some videos which showed the firing of these missiles.

We finally headed on to the private beach where we were to spend the rest of our day. There were arrangements made for playing golf, volley ball, cricket, etc. There was light music in the background to elevate our moods. We then played a game of Housie. Lunch was arranged at the same place. After lunch, many of the teachers headed for the waters. An enjoyable day was soon coming to an end. We all headed for the bus which was to take us back to the boat and then Cheetah gate at Mumbai coast. ....A memorable day !
