

COURSE OBJECTIVES & COURSE OUTCOMES

Subject: Foundation Course - I

F.Y.B.COM (Accounting & Finance)

(Semester I)

Sr. No.	Course Objectives	Course Outcomes
1)	To enable students to outline multi-cultural diversity and linguistic diversity of Indian society.	Students would evaluate the diversity of Indian society through its demographic composition. Students would relate to regional variations according to rural, urban and tribal characteristics.
2)	To enable the students to evaluate disparity arising in India due to varied factors.	Students would explore the disparities arising out of gender and would also be enabled to understand the inequalities faced by people with disabilities.
3)	To enable students to examine inequalities arising due to caste system, regionalism and linguistic differences.	Students would be able to examine the inequalities arising due to caste system, communalism, regionalism and linguistic differences.
4)	To enable students to acquaint themselves with the Constitution of India.	Students would be well versed with the philosophy and features of Indian Constitution, fundamental duties of Indian citizen and the crucial values laid in there.
5)	To enable students to describe the various aspects of political processes in India.	Students would identify the party system in Indian politics. They would evaluate the role of local government in rural and urban areas and the role of women in politics.
