

COURSE OBJECTIVES & COURSE OUTCOMES

Subject: Project Work

T.Y.B.COM (Accounting & Finance)

(Semester VI)

Course Objectives	Course Outcomes
To inculcate the element of research and analysis in students and help them develop a specific temperament that would challenge their potential with regard to their research problem. To help them analyse and interpret the data collected from primary and secondary sources and form conclusion from the same.	Students would plan and manage their project, conduct a critical review of relevant literature, undertake their project work to professional standard and evaluate information to prepare a report on their findings.
