EXPRESS YOUR OBSERVATION / SUGGESTION ABOUT OVER ALL TEACHING LEARNING EXPERIENCE IN THE COLLEGE.

Some of the suggestions given by the students for overall improvement of the institution are:

It was great we don't have to take any classes for learning

Well...!as per my opinion teachers give more efforts on the students to learn new things in their regular activities

Provide opportunities to them to speak in the class. Try to reach every student and ask for their doubts.

That is my personal experience in teacher aur very good teaching techniques and very friendly in class room and very supportive and incarege to our good thik

Teachers of enthusiasm for teaching contributes to a positive learning atmosphere.

Please I request to all the members of our Faculties to complete the syllabus 15 - 20 day before the examination It's very much difficult for us to learn something new along with exam preparation . It put us in dilema what we suppose t do

The learning experience in the college has been always good and interactive. Would suggest that college should also teach accounting related subject in computer as well so students can have a basic knowledge to implement their learning practically. Thank you
